Business Continuity Policy

Document ID: RISK-BCP-004 | Owner: Enterprise Risk | Version: 1.3 | Effective: 2026-07-26

The company maintains continuity plans for critical processes and supporting technology.

Continuity objectives:

- Protect people first during any disruption
- Restore essential customer-facing and internal services in priority order
- Maintain backups and test recovery procedures regularly
- Document alternate work arrangements and supplier dependencies

Critical functions must have an assigned recovery owner and annual exercise schedule.
